PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science undergraduate with strong skills in front-end development, UI/UX design, and backend programming. Experienced in building responsive web applications and experimenting with AI tools. Passionate about user-centered design, collaboration, and innovation.

TECHNICAL SKILLS:

Languages & Frameworks: HTML, CSS, JavaScript, React, Tailwind CSS, C++,Python

Tools: Git/GitHub, Firebase, CrewAI

Other: UI/UX Design, Gemini AI, Data Analysis (Python), Team Collaboration

---

PROJECTS & EXPERIENCE:

1. **Web Development Intern – Clouditecture (2024)**

Built front-end components using React and CSS for enterprise dashboards.

Collaborated with UI/UX team to integrate interactive AI and shape panels using React Flow.

2. **Web Development Intern – Noyaa (2024)**

Developed responsive web interfaces using React and Tailwind CSS.

Contributed to user-friendly design and reusable component structure for client projects.

Library Management System

Built desktop (Python) and web (HTML/CSS/JS) versions with login, search, and clean UI.

Personal Portfolio

Created with React to showcase skills and projects using interactive and responsive design.

Agentic AI with CrewAI

Implemented AI automation using intelligent agents for collaborative task execution.

EDUCATION

BSc in Computer Science

University of Peshawar | 2022 – 2025

Agentic Ai

PIAIC | 2024 –2025

LEADERSHIP & COMMUNITY

Millennium Fellowship Graduate (2024) – Social impact and leadership projects

GDSC Core Member – Organized developer events and peer learning

CSSC – Contributed to tech sessions and student support

KOICA Participant – Attended youth empowerment workshops

Udaan Program – Engaged in undergrad tech growth activities
